

CAMPERFIELD

Camperfield: Is an acrylic coated woven polyester fabric designed for maximum outdoor durability in uses such as caravan annexe walling and fixed awnings.

Camperfield: Is from one of Australia's leading manufacturers of outdoor fabric. The fabric is based on high strength, rot-proof and abrasion resistant woven polyester. The fabric is waterproof to driving rain and resists U/V degradation.

Camperfield Range: Consists of a range of striped designs with Grey or Beige backing. The striped designs are based on proven caravan colours.

- Features:**
- Excellent water resistance
 - Long U/V life
 - Outstanding colour fast properties
 - Large colour range
 - Fashionable designs.

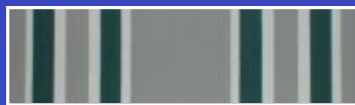

Technical Characteristics:

Mass	350 gsm
Width	185cm
Roll length	50 metres
Roll weight	32kg
Tensile strength	2300 N/5cm Warp 1700 N/5cm Weft
Tear resistance	90 N Warp 60 N Weft
Water resistance	20 kpa hydrostatic head. Nil cone leak 90 spray rating
Light fastness	7-8
Shrinkage	3% Warp 2% Weft
